WHO WE ARE

“Consorzio SIM” (Multidisciplinary Engineering Services) was created in 1997 from the association of five specialized engineering companies with the common aim of satisfying every-day more sophisticated customers requiring complete and multidisciplinary engineering services.

Nowadays, our structure is proudly composed of highly prepared staff including engineers with decades of experience and 2D/3D designers committed all to add value to the professional services we deliver.

Clients are at the center of our daily activities. With a modern and functional structure that assures economical convenience and promptness, we endeavor to deliver high quality engineering services by working hand in hand with our customers so as to be in a position to fully understand, share and fulfill customers requirements and expectations.

AlphaPipe S.r.l. is a specialized company in plant engineering. Decades of experience put it in a position to duly and timely deliver high quality piping engineering services in accordance with the most rigorous internal and client's quality procedures.

M.E.D. Servizi S.r.l. Modeling Engineering Design is a company well experienced in the application of key codes, and specialized in the modeling and design of civil works and structures for industrial plants. In addition to detailed engineering services, M.E.D. Servizi S.r.l. provides feasibility studies and cost estimates, infrastructure designs, construction supervision and testing of structures.

Proin S.r.l. is an engineering organization with diversified and documented worldwide experience in the field of instrumentation and automation for traditional and advanced process control, building automation, communication and telemetry systems.

Ser.Ing. S.r.l. is a specialized company in plant engineering. With over thirty years of experience with major engineering companies, Ser.Ing S.r.l. currently delivers qualified plant engineering services including, but not limited to, development of engineering required to better define a buyer's offer, finalization and contract management, construction consulting, estimates and feasibility studies.

TRUSTWORTHINESS:

we abide by our agreements with the customers and respect our commitments while taking an active role in helping clients' success.

DEVELOPING TALENT:

we are good at we do, because our people is good at what they do. Thus we are committed to deliver coaching and training at scale to develop our personnel so as to keep up with technology's fast changing pace.

ACHIEVEMENT FOCUS:

we add value to all our customers by measuring and pursuing continual performance improvement, and by endeavoring to build mutual long-term relationships with them.

QUALITY AND ORGANIZATIONAL KNOWLEDGE:

we, as a ISO 9001 certified consortium, ensure the fulfilment of customers quality requirements, and applicable regulatory requirements, while enhancing Customer satisfaction.

SOCIAL RESPONSABILITY:

health, safety and the environment are our priorities whatever we do and wherever we are.
